# Software licenses

All the software we use at school is, *of course*, properly licensed. This does mean that you might have to fill in licensing information when you start some software. The following table contains all of our license server information:

Server	Port	Vendor	Type	Program(s)
<b>nfa-lic01.ahk.nl</b>	27000 Licentie / 2080 ADSKflex server	Autodesk	FlexLM	Arnold / Maya
<b>nfa-lic02.ahk.nl</b>	4102	Foundy	RLM	Nuke, Mari
<b>nfa-lic03.ahk.nl</b>	5053	KeenTools	Custom	FaceBuilder
<b>nfa-lic03.ahk.nl</b>	5055	Kognat	RLM	Rotobot
<b>nfa-lic04.ahk.nl</b>	40500	Isotropix	Custom	Clarissee
<b>nfa-lic05.ahk.nl</b>		SideFX		Houdini
<b>nfa-lic05.ahk.nl</b>		Science-D-Visions		3DEqualizer
<b>nfa-lic06.ahk.nl</b>		Peregrine	RLM	Yeti / Bokeh
<b>nfa-lic07.ahk.nl</b>		Thinkbox	Samba	Deadline Repository
<b>nfa-lic07.ahk.nl</b>	27008	Thinkbox	Thinkbox	Deadline

## Other licenses

We have licenses for some software packages that don't use a typical license server. Here's an overview of how to configure these applications.

Software package	Instructions
<b>Adobe Creative Cloud</b>	Open the creative cloud software and log in with your AHK email and password. This will take you to our school's login site. Note: This license only works on school computers.

Software package	Instructions
ZBrush	Ask Mattie/Marij
Mocha Pro	You'll need to request an educational license from BorisFX for this. They do charge a small fee for processing your data.
