Software licenses

All the software we use at school is, *of course*, properly licensed. This does mean that you might have to fill in licensing information when you start some software. The following table contains all of our license server information:

Server	Port	Vendor	Type	Program(s)
nfa-lic01.ahk.nl	27000 Licentie / 2080 ADSKflex server	Autodesk	FlexLM	Arnold / Maya
nfa-lic02.ahk.nl	4102	Foundy	RLM	Nuke, Mari
nfa-lic03.ahk.nl	5053	KeenTools	Custom	FaceBuilder
nfa-lic03.ahk.nl	5055	Kognat	RLM	Rotobot
nfa-lic04.ahk.nl	40500	Isotropix	Custom	Clarisse
nfa-lic05.ahk.nl		SideFX		Houdini
nfa-lic05.ahk.nl		Science-D-Visions		3DEqualizer
nfa-lic06.ahk.nl		Peregrine	RLM	Yeti / Bokeh

Other licenses

We have licenses for some software packages that don't use a typical license server. Here's an overview of how to configure these applications.

Software package	Instructions
Adobe Creative Cloud	Open the creative cloud software and log in with your AHK email and password. This will take you to our school's login site. Note: This license only works on school computers.
ZBrush	Ask Mattie/Marijn
Mocha Pro	You'll need to request an educational license from BorisFX for this. They do charge a small fee for processing your data.
